ODC movements**

Why Choose Air Suspension?

- **ABSORBS ENTIRE SHOCK**

Air Suspension absorbs the entire shock in case if vehicles gets bumped into the potholes, speed breakers and also in the regular course of route.

- **SELF STEER TECHNOLOGY**

Works on a Self Steer Technology which means adjusts the shock automatically according to the pressure.

- **AXLE CLAMP**

Axle Clamp group design reduces lateral stress.

- **BETTER BREAKING SYSTEM**

Available with flat U-bolts to accommodate hardest brakes which means better breaking system in case of emergency brakes also.

Air Suspension Benefits

- **NO DAMAGE**

No damage to goods during transportation.

- **SPEEDY DELIVERY**

Speedy delivery of goods.

- **NO COST**

No cost of repairs after transportation.

- **NO REJECTION**

No rejection of exported goods due to transportation damage.

- **REDUCTION IN EFFORTS**

Reduction in efforts & cost of claiming insurance after transportation damage.
